The Spa That Knows

No Boundaries

There can be absolutely no compromise when it comes to the well-being of the body, mind and soul. At Elysyle Spa, our pledge is to help you restore Balance - through reviving internal systems and rejuvenating your inner core. It becomes our priority that your re-energising program is incomparable: pure, organic, combining nature's ancient therapeutic art of healing with state-of-the-art science.

Your re-energising zen journey back to Balance begins right here.

Elysyle Spa is uniquely secluded from the glare of commercial spotlights. Its 10,000 sprawling square feet of crafted rich timber and marble is luxurious with lavish in-built private quarters.

Elysyle's Signature Energising Stone Spa - 1st in South East Asia, one-of-its-kind imported from Japan's most renowned, original superior sources, Elysyle Spa spares no expense in combining premium stone spa features with comprehensive health benefits. Set in an exclusive spa chamber, Elysyle's stone beds comprise 4 of Japan's most precious natural energising ores - Tercho-seki, Tenju-seki, Biotite and Tourmaline.

These 'healing gems' exude distinctive, concentrated curative properties for :

Short-term Stress: jet lag, lethargy and exhaustion, insomnia, back/shoulder pains and other stress-inducing symptoms.

Long-term Stress: migraine, chronic fatigue and anxiety, while promoting confidence and mental alertness, stimulating blood circulation and eliminating toxins.

Health Benefits: strengthens immune system, relieves allergies, rheumatism, arthritis, constipation and asthma, and revitalises cell metabolism.

The welding force behind the efficacy of Elysyle's 'healing gems' are electromagnetic Far Infra Red Rays (FIR) and negative ions which can emanate only from genuine and choice ores. These energised waves re-activate the body's natural FIR productivity - an indispensable process to strengthen the inner system and metabolism. The negative ions have powerful anti-oxidant properties which ensure the immune system works optimally.

Elysyle Spa employs state-of-the-art Vibration Science Technology of breaking down mist into vapours to ease absorption into the system to revitalise bodily functions and provide moisture to skin - another extraordinary feature at Elysyle.

A 20-minute stone spa session at Elysyle Spa will energise you holistically. You'll feel uplifted with a renewed spark of vitality and alertness to take on the world again. Re-energise from a selection of our signature treatments at a special introductory package, with complimentary Elysyle Energising Stone Spa with every treatment. So for a day, bask in your own solitude or share a romantic interlude with your loved one. You have one lifetime - Live It!
